SAN ANTONIO RIVER **FOUND.**

MOUNTAINFILM **ON TOUR**

SAN ANTONIO

The **San Antonio River Foundation** invites you to Confluence Park on the evening of Thursday, October 8th, 2020 from 6:30-9:30pm for Mountainfilm on Tour- San Antonio. Come view culturally rich, adventure-packed and inspiring documentary films at San Antonio's favorite park. Paired with delightful morsels and libations, Mountainfilm on Tour- San Antonio will awaken your love of nature. All proceeds benefit the San Antonio River Foundation's vision to inspire stewardship along the San Antonio River.

WHO WE ARE

The River Foundation is the 501 (c)3 nonprofit partner of the San Antonio River Authority, established to provide amenities and enhancements along the San Antonio River and its tributaries not funded by public monies. The River Foundation invests in, and manages, public projects that provide opportunities for residents and tourists alike to enjoy the river's natural beauty, immerse themselves in its history and become thoughtful stewards of its future.

WHAT WE DO

The River Foundation creates unprecedented opportunities to enjoy and learn more about our river through free public programming and educational field trips at Confluence Park, numerous recreational experiences along, and on, the river, and funding and installing exciting urban art projects by renowned regional, national, and international artists. The River Foundation helps the citizens of San Antonio and its visitors become more thoughtful stewards of the land and water resources of the San Antonio River Basin.

OUR IMPACT

Since 2003, the River Foundation has privately raised and reinvested more than \$38 million dollars in enhancing the San Antonio River. Our project partners include, the San Antonio River Authority, Bexar County, City of San Antonio and U.S. Army Corps of Engineers, and collectively they have invested more than \$384 million in river improvements for our community. Together, our investments have added more than \$2 billion in economic impact through adjacent private investment and development.

Since its inception in 2018, Confluence Park has served more than 32,000 program attendees and students, transforming the area into a community hub that celebrates environmental stewardship. Additionally, Confluence Park has been awarded the American Institute of Architecture 2019 Honor Award.
